this book offers a global perspective on the development and design of a digital

library and highlights its benefits over a traditional library provided by publisher

with nearly a quarter of the world's population members of at least five major language families plus several putative language isolates south asia is a fascinating arena for linguistic investigations whether comparative historical linguistics studies of language contact and multilingualism or general linguistic theory this volume provides a state of the art survey of linguistic research on the languages of south asia with contributions by well known experts focus is both on what has been accomplished so far and on what remains unresolved or controversial and hence offers challenges for future research in addition to covering the languages their histories and their genetic classification as well as phonetics phonology morphology syntax and sociolinguistics the volume provides special coverage of contact and convergence indigenous south asian grammatical traditions applications of modern technology to south asian languages and south asian writing systems an appendix offers a classified listing of major sources and resources both digital online and printed

this book details the most contemporary concerns related to urban development governance and planning as well as the challenges to urban administration it analyses the policies and programmes adopted by both high income and lower middle income countries to achieve sustainable urbanization and their application and treatment to help students get a holistic practical perspective of the issues at hand this volume elucidates urban development theories and approaches coupled with urban planning local government finance urban management and urban governance it also discusses urban issues and challenges such as education health waste management land use planning housing and transport critical concerns related to urban water bodies open spaces urban heritage and smart cities and urban future are similarly addressed this book will be useful to students researchers and teachers of urban planning and architecture urban sociology economics geography environmental science and public administration it shall also be useful to ngos parastatal bodies and trainers of urban planning and development planners policymakers functionaries and elected representatives of urban local bodies may also use this book as a capacity building instrument

biotechnology engineering a practical approach on bioprocess development from lab to industrial scale offers a comprehensive guide on biotechnology engineering

focusing on transforming research and development into commercially viable industrial processes the book addresses the needs of the market by providing structured chapters practical methods and real world case studies readers will gain valuable insights into bioprocessing basics scalable solutions optimization techniques and collaboration opportunities the text also covers essential regulatory compliance information bridging the gap between theoretical knowledge and practical applications the book is a vital resource for academics scientists engineers and professionals in bioprocess development it includes detailed discussions calculations and case studies modern bioreactors and software tools used in the industry serving as a desktop reference it effectively combines theory with real world applications to support the development of bioprocesses on all scales helps readers understand the practical approach involved in bioprocess developments includes calculations and case studies that are essential for independently scaling up bioprocesses from erlenmeyer flask studies to bioreactors provides insights into auditing requirements for the bioprocess industry

this volume interrogates the mediatized politics of western intervention in afghanistan to gain a deeper understanding of the occupation within the broader transition toward a multipolar global order accurate histories of western interventions and regional realities are often obscured or even eclipsed in the accounts of western mainstream media which if anything tend to rue the withdrawals and lionize the suffering of returning troops this volume investigates the state s role in the dark underbelly of the shortsighted interventionist media narrative as well as the dehumanizing portrayals of people living in the afghanistan pakistan region in its opening section the book critically evaluates the narrative of the global war on terror as well as the wars launched after 9 11 that destabilized the middle east the chapters in the following section contextualize developments in afghanistan with a historical framework that will problematize linear narratives that are mobilized in support of interventions the chapters in the final section re present specific aspects of the geopolitical and humanitarian consequences that have eluded mainstream media workers including journalists and hollywood moviemakers this book will be of interest to students of propaganda studies media and communication studies us foreign policy and international relations

asian populations are among some of the fastest growing cultural groups in the us while books on serving other target groups in libraries have been published e g

disabled latino seniors etc few books on serving library users of asian heritage have been written thus the timely need for this book rather than a generalized overview of asians as a whole this book has 24 separate chapters each on 24 specific asian countries cultures of east southeast and south asia with a wealth of resources for understanding interacting with outreach to and serving library users of each culture resources include cultural guides both print and online language helps with sample library vocabulary asian booksellers nationwide cultural groups professional literature and more resources and suggestions are given for all three types of libraries public school and academic making this book valuable for all librarians the demographics of each asian culture numbers and distribution plus history of immigration and international student enrollment is also featured as a bonus each chapter spotlights a us public school and academic library providing model outreach to asian library users additionally this book provides a detailed description and analysis of libraries in each of the 24 asian countries the history development facilities conditions technology classification systems and more of public school and academic libraries are all discussed with detailed documentation country conditions influencing libraries and library use are also described literacy levels reading cultures languages and writing systems educational systems and more based on the author s 15 years of research and travels to asia this work is a must have for all librarians
